

THESE PHOTOS SHOW THE EXISTING 120-FOOT CAPIZZI LANDSCAPING TWO-WAY RADIO TOWER AT THE FRONT OF 820 MAIN STREET AND THE BALLOON THAT WAS RAISED TO A HEIGHT OF 120 AT THE NORTHEAST REAR CORNER OF THAT PROPERTY. NOTE THE HIGH-HEIGHT PINES IN THE CENTER AND REAR OF THE PROPERTY THAT ARE NOT BEING DISTURBED IN CONNECTION WITH THE PROPOSED 120 FOOT TOWER/POLE RELOCATION. ALSO NOTE THE EXISTING VISIBLE UTILITY POLES ALONG MAIN STREET.

THIS PHOTO, TAKEN FROM MAIN STREET, SHOWS THE EXISTING CAPIZZI LANDSCAPING PROPERTY AT 820 MAIN STREET. NOTE THE EXISTING LIGHT POLE ON THE SUBJECT PROPERTY AND THE VISIBILITY OF THE SILO ON THE ROOF OF THE ADJACENT REX LUMBER PROPERTY. VERIZON WIRELESS IS SEEKING TO RELOCATED THE EXISTING TOWER TO THE REAR OF THE PROPERTY IN THIS PHOTO.

THESE PHOTOS SHOW A 120 +/- MONOPOLE IN AN AREA OF PINES. NOTE THE STANDARD TRIANGULAR (3-SECTOR) PANEL ANTENNA ARRAYS AND NOTE THE "WHIP" TYPE ANTENNAS ON THE TOP OF THIS POLE. VERIZON WIRELESS IS PROPOSING A SIMILAR "STANDARD" MONOPOLE AT THE 820 MAIN STREET SITE WHICH, UNLIKE A "STEALTH" OR "STICK" POLE, WILL ALLOW FOR 1) THE ATTACHMENT OF SEVERAL WHIP TYPE ANTENNAS AT THE TOP OF THE POLE (INCLUDING GOVERNMENT AND MUNICIPAL WHIP ANTENNAS), 2) INCREASED USE OF THE POLE FOR OTHER CARRIERS (AT TEN-FOOT INCREMENTS, WHICH IS THE INDUSTRY CUSTOM) AND 3) FUTURE HEIGHT EXPANSION OF THE POLE ABOVE THE INITIAL HEIGHT OF 120 FEET, IF DESIRED OR NECESSARY.

THESE PHOTOS SHOW THE AREA FOR THE PROPOSED MONOPOLE, ON THE UNUSED LOADING AREA IN THE NORTHEAST REAR CORNER OF THE CAPIZZI LANDSCAPING PROPERTY. IT APPEARS THAT JUST ONE OR TWO LOW-HEIGHT PINES, IF ANY, MAY BE DISPLACED DURING THE CONSTRUCTION OF THE FACILITY COMPOUND. THE OTHER LOW HEIGHT EVERGREENS ARE CAPIZZI LANDSCAPING STOCK. THE REAR OF THE CAPIZZI SITE IS BOUNDED ON THE EAST BY THE REAR CONCORP SINGLE-LEVEL WAREHOUSE TYPE STRUCTURE AND ON THE NORTH BY A REX LUMBER WAREHOUSE TYPE STRUCTURE WITH A ROOFTOP SILO.

THIS PHOTO SHOWS A TYPICAL EQUIPMENT COMPOUND WITH SHELTERS AND AN AUXILIARY PROPANE TANK, WITH THE COMPOUND FENCED WITH CHAIN LINK. AT 820 MAIN STREET, VERIZON WIRELESS'S GENERATOR WILL BE STORED INSIDE ITS SHELTER AND THE PROPANE TANK WILL BE IN THE REAR OF THE COMPOUND AND VERIZON WIRELESS IS WILLING TO INSTALL A SOLID FENCE ALONG THE EAST SIDE TO SCREEN THE COMPOUND FROM THE ADJACENT PROPERTY TO THE EAST.
